### Ballistic Vests

#### Total A™ vests

Total A™ is made from water and fire proof material. The protective plate slot is designed to hold a battle protection plate (25x30cm).

This excellent vest can easily be upgraded to suit the needs of task forces in the police and army. Its tails are sowed on to make it fit more comfortably. It has the same low weight, and is as easy to conceal as the Vital A™, but with protection on the sides. Total A™ is available for both men and women. We adjust women vests individually.

## CJacket A™

This protective jacket is worn by politicians, company executives and others in need of protection. The protective panels are easily exchangeable, which makes it suited for many purposes.

This jacket is made according to the wishes of the customer, regarding protective level and colour as well as type of jacket/coat.

## Hawk & Eagle™

This battle vest gives the soldier the option of carrying his normal battle equipment with maximum comfort and no movement impediments, and still retain the protection of a bullet-proof vest.

Protective level from III-A. At Active Armour, we use Dupont Nomex™III, Cordura™ nylon or cotton canvas for our vests. These vests are closed with Velcro®, and have a number of pockets sown on. Active Armour has many years of experience developing vests for anti-terrorist groups and other special task forces.

## Coast A™

This vest is developed for international coast guarding and navy purposes. It gives protection and serves as a life vest at the same time.

The floating panel is removable, so the level of protection can be increased. The life vest is activated with a gas tube.

## Proper A™

This vest is worn by politicians, company executives, bodyguards and others in need of protection. The protective panels are easily exchangeable, which makes it suited for many purposes.

It is made according to the wishes of the customer, regarding both protective level and colour.

## Battle A™

Developed for police and security personnel. The vest is closed at the sides with bullet-proof panels. Groin-, neck-, and shoulder protection can be removed.

Complementary bullet-proof plates increases the level of protection to class IV standard, caliber 5.56 and 7.62 AP.

Available in black, marine and camouflage.

# Plates

## RPS Class 3

After many years of field research, we have developed this plate especially for armour-piercing ammunition (AP).

We would like to claim that this is the best and most thoroughly researched plate available on the market today. Together with our body protection vest, this plate will stop
